

2023 届北大附中英语中考作文资料储备——环保话题

环保秘诀：2, 4, 6, 8

班级_____ 英语教师_____ 姓名_____

老师的话：

环保类的作文，最忌讳的是同学们把它写大：从温室效应到碳排放，再到生物危机---。我们更愿意看到的是你如何从一件件小事开始做起，逐渐培养朴素的环保意识。少用塑料袋和尽量双面用纸比关注碳排放更受老师欢迎。

2 篇 2020 年海淀一模【必背范文】

题目①

垃圾分类，人人有责。

假如你是李华，你受学生会的委托，向在校交换生发出参与垃圾分类的倡议。请你以“Waste Sorting—A Must for Everyone”为题，用英文写一封倡议书，谈谈垃圾分类的意义，以及我们能做什么。

提示词语：waste sorting(垃圾分类), litter, recycle, protect, environment

提示问题：● Why is waste sorting important?

● What can we do to help with waste sorting?

范文一：

Waste Sorting—A Must for Everyone

Dear fellow students,

Waste sorting is becoming increasingly common around our country. I hope all of us can get involved in this meaningful activity. It is important because it can not only reduce the land pollution but also raise our awareness to protect the environment.

As students, we can do a lot for waste sorting. First of all, we should learn how to sort the waste online. Secondly, we can sort the waste by preparing some bins in different colors at home. Last but not least, it's also a good choice to put up posters to call on more people to join us.

In a word, even a small action can make a big difference to our environment. Let's pull together to start sorting the waste right now! Thank you!

范文二：

Waste Sorting—A Must for Everyone

Dear Students,

Waste sorting is becoming increasingly common around our country. People are encouraged to sort waste for good reasons. To begin with, it is an effective way to cut down both air and land pollution, as otherwise more waste will be burned or buried, which will do harm to our environment. Also, when different kinds of waste are mixed, there is a great loss in possible resources for the future. Therefore, it is high time for everyone to sort waste!

As students, there are lots of things we can do. First, sorting at home is a must. To make waste

sorting easier, we can prepare bin bags in different colors for particular kinds of waste. Second, we can make posters on the necessity and importance of waste sorting to call on more people to take action. Only when every citizen develops a habit of sorting waste can our environment be better protected. It's a matter of great urgency and we must go into action now!

Things You Can Do to Help the Environment	
The biggest use of home energy is for cooling and heating. So turn up your air conditioner (空调) and turn down the heat, especially at night. Replace regular light bulbs with fluorescent bulbs (荧光灯), which use less energy.	
Cars are getting bigger, even 5 meters long. They burn more gas and increase problems with acid rain and air pollution. So try to walk, bicycle, or use public transportation. This can save more gas and reduce pollution.	
Each American throws away an average (平均) of 10 kilograms of trash (垃圾) every day. Reduce waste before you buy by thinking it carefully: Do I need it? Is it something I can only use once? Buy products that you can use over and over again.	
Showers use a lot of water. In one week, a typical American family uses as much water as a person drinks in 3 years! Buy a special "low-flow" showerhead or take shorter showers. This can cut water use in half.
